## Training Options

### **WildFire Training**

WildFire Training sessions are offered in various locations around the country and focus on the newest WildFire version of FirePrograms. Each session has attendees from multiple departments registered. Your department has the option to attend a session at an alternate location, or may even be able to host a session at your facility. WildFire Training sessions are designed for new or intermediate WildFire users. We follow a standard agenda, which covers basic program fundamentals, as well as the operation of the core Station & Risk Manager modules.

*Cost: \$495 / Per Person (1 Attendee) **OR** \$395 / Per Person (2+ Attendees-Same Department)*

### **On-Site Training**

On-Site Training offers your department a fully customized training session for an unlimited number of department members with an instructor on-site at your department. Prior to the class, the instructor will conduct a needs assessment, then create a custom agenda to meet your needs.

*Cost: \$1,500 / 1<sup>st</sup> Day, \$1,250 / Additional Days, Plus Travel Expenses*

### **Department Customized Web Training**

Online, interactive training sessions are conducted by a live instructor, and can be scheduled in 4-hour blocks. Prior to the session, the instructor will find out your priorities and create a custom agenda to meet your goals for the session. Your department can have up to 14 computers logged into the online session and will use a toll-free number to facilitate the audio portion of the session.

*Cost: \$450 / Per 4-Hour Block*
