

Release Notes

Release 19.2.7129.14642 M 7/9/19

FirePrograms functionality changes and enhancements:

- FirePrograms Web Deployed Version:
 - For all Attachments browsers, added a viewer for the following attachment types:
 - .docx
 - .xlsx
 - .pdf
 - .jpg
 - .png
 - .txt
 - Any other file types can be attached to records and then those files types must be downloaded to the client machine to be viewed.
- Security -> Users
 - Added a “Reset Security” function as a drop down option from the ‘Change’ button. This will reset the selected user back to the role permissions.
- Scheduling -> Manual Statistics no longer shows inactive personnel.
- Protected Properties
 - Custom fields can now be added to the Protected Property browser and data in that custom field can be searched.
