

Release Notes

Release 19.2.7220.22483M 10/8/19

FirePrograms functionality changes and enhancements:

- Added logging for **system sent emails** to the Activity Logs.
 - Emails sent (Scheduled System Reports, Incident Reports, and Inspection Reports) are now logged in the Activity Log.
 - Email addresses can be searched from the Activity Log.

The screenshot shows a 'Filter Settings' dialog box with several sections. The 'Level of Logging' section has radio buttons for 'Summary' (selected) and 'Detailed'. The 'Find Logs for:' section contains three dropdown menus: 'Major Feature Group' (set to 'Incident Reporting'), 'Record Type (including Sub Types)', and 'Specific Record Type'. The 'Set Date Range' section has 'From Date' and 'To Date' text boxes, an 'OR' separator, and 'Operator Type' (set to 'Year to Date') and 'Operator Value' text boxes. The 'Filter Options' section has an 'Entry Text Contains' text box with the value 'cmagiera@fireprograms.com'.
